EDUCATION

2019 - 2021 NED UNIVERSITY

- MS Information Security
- CGPA 3.5/4.0

2013 - 2017
SUKKUR IBA UNIVERSITY

- Bachelor of Computer Science
- GPA: 3.1 / 4.0

SKILLS

- PHP Laravel
- Node.js
- Python,
- DevOps
- Cloud Infrastructure,
- AWS
- Linux
- Docker
- CI/CD
- Automated Deployments
- Production Support

LANGUAGES

- English (Fluent)

PROFILE

Experienced Full Stack Developer with 7+ years in the industry and high-level proficiency in the following programs: PHP(Laravel), NodeJS, Javascript, VueJS, MySQL, MongoDB, PostgreSQL, and DevOps(AWS). My experience involves building scalable server-side web apps. I am very familiar and experienced with Web Application Architecture and have worked with a good number of successful development teams.

WORK EXPERIENCES

Huurscreen, Netherland (Remote)   JAN 2023 - PRESENT
Full Stack Engineer (DevOps & Cloud)

- Designed and developed backend applications and APIs using PHP (Laravel), Node.js, and Python, delivering production-ready features.
- Built and maintained application databases, implemented business logic, and optimized queries for performance and reliability.
- Managed end-to-end deployments, including server setup, environment configuration, and application releases.
- Implemented CI/CD pipelines to automate build, testing, and deployment processes, reducing manual effort and deployment errors.
- Containerized applications using Docker and managed multiple environments (development, staging, production).
- Monitored live systems, debugged production issues, and collaborated with stakeholders to ensure stable and scalable application delivery.

Freelance Developer (Fiverr)   FEB 2021 - DEC 2022

- Successfully completed a wide range of projects for various
- clients, maintaining high satisfaction rates.
- Developed and maintained Shopify public and private apps,
- customizing functionalities to meet client needs.
- Built and deployed applications using Python, ensuring code
- quality and efficiency.
- Utilized Node.js for backend development, creating robust and
- scalable server-side applications.
- Managed cloud deployments on AWS and DigitalOcean,
- ensuring high availability and performance.
- Implemented automation scripts and managed infrastructure as
- code to streamline deployment processes.
- Collaborated with clients to understand project requirements,
- providing regular updates and maintaining clear communication
- throughout the project lifecycle.
- Gained a reputation for delivering projects on time and within
- budget, while adhering to best practices and industry standards.

Next Generation Innovation, Karachi Pakistan   Dec 2019 - Jan 2021
Backend Developer

- Designed and developed the front-end of the application using Vue.js, ensuring a responsive and user-friendly interface.
- Implemented the back-end using Laravel, integrating with Laravel Inertia for seamless server-side rendering.
- Developed the architecture of the database, ensuring efficient data storage and retrieval.
- Managed the complete project deployment, ensuring the application was properly configured and optimized for performance.
- Worked closely with the client to understand project requirements and deliver a solution that met their needs.
- Ensured code quality and maintainability by following best practices and industry standards

Botsify, Karachi Pakistan   Nov 2017 - Nov 2019
Full Stack Developer

- Developed APIs on PHP Laravel & NodeJS for frontend & mobile
- Analyzing data to identify possible improvements in efficiency or performance.
- Optimization of the database queries for maximum speed and scalability.
- Design and implementation of data storage solutions
